Since its founding in 1996, the AGiHO (Working Party on Infections in Hematology and Oncology) has been dedicated to improving the prevention, diagnosis, and treatment of infections in immunocompromised cancer patients. Over the past 30 years, AGiHO has established itself as a leading authority by developing evidence-based guidelines, publishing in high-impact journals, and fostering international collaboration. With more than 200 physicians from Germany, Austria and Switzerland, AGiHO brings together a diverse and committed membership. The organization is structured into topic-specific working groups and led by its Executive Board: Prof. Dr. Oliver Cornely, Cologne (Chair), and Prof. Dr. Christina Rieger, Munich (Vice Chair). Through this structure, AGiHO continues to shape clinical practice and support the next generation of infectious disease experts.
