2023 CONFERENCE

Berlin Conference on Lymphoma (B-CoL)

Cancer dynamics in time and space

Berlin, April 26 - 27 2023

Harnack-Haus of the Max-Planck Society

Dear colleagues and friends,

It is with great pleasure that we invite you to the 2023 Berlin Conference on Lymphoma (B-CoL). After a longer SARS-CoV2 pandemic-triggered break, we now reinvigorate this two-day event that brings together key opinion leaders in the clinical management of lymphoma patients and translational lymphoma researchers.

The scientific topic of the 2023 Berlin Conference on Lymphoma is Cancer dynamics in time and space. The B-CoL will take place at the Harnack-Haus of the Max-Planck Society on April 26 and April 27. Notably, we are pleased to announce Prof. Nikolaus Rajewsky as keynote speaker. We are looking forward to meeting you for this certainly vibrant and stimulating meeting.

Ulrich Keller und Björn Chapuy

PROGRAM

Day 1 (April 26 from 12:00 - 19:00)

12:00 Registration/Welcome reception

12:45 **U. Keller** – Welcome

13:00 Clinic Session I – CLL

Moderators: **L. Bullinger/F. Damm**

B. Eichhorst – Treatment algorithms of CLL - quo vadis?
D. Rossi – MRD triggered therapy in CLL
S. Stilgenbauer – High-risk CLL and Richter - lessons from genomics

14:30 1st Coffee break

15:00 Clinic Session II – Aggressive lymphoma

Moderators: **B. Chapuy/A. Busse**

G. Lenz – Treatment algorithm of DLBCL
C. Thieblemont – Novel developments for r/rDLBCL
F. Scherer – Liquid biopsy guided therapy – are we there?
R. Wurm-Kuczera – Patient-reported outcome analysis (short talk)
G. Illerhaus – Treatment paradigms for CNS lymphoma/CNS prophylaxis

17:00 2nd Coffee break

17:30 Clinic Session III – Indolent lymphoma

Moderators: **M. Janz/C. Leng**

C. Pott – Therapy algorithm MCL and the role of MRD-triggered therapy
M. Subklewe – To CART or BITE relapsed/refractory indolent/aggressive lymphoma?
O. Weigert – Risk prediction and patient stratification in follicular lymphoma

18:55 **B. Chapuy** – Closing remarks Day 1

Day 2 (April 27 from 9:00 - 16:15)

9:00 **U. Keller** – Welcome

9:05 Translational Session I

Moderators: **U. Keller/P. Mertins**

R. Rad – Exploiting new targets using functional genomics
F. Baumgartner – Single cell sequencing for genome-wide cancer gene discovery screening (short talk)
B. Chapuy – Genomic signatures in DLBCL/precision medicine - where are we?

10:00 1st Coffee break

10:20 Translational Session II

Moderators: **U. Keller/P. Mertins**

M. Binder – Germline variants in lymphoid malignancies
R. Siebert – Epigenetic signatures
T. Oellerich – Proteogenomic strategies on lymphoma

11:15 Keynote Lecture – Prof. Dr. Nikolaus Rajewsky

12:00 Lunch break

13:00 Translational Session III – Lymphoma as an organ, Role of the TME: **Moderators:** **B. Chapuy/S. Mathas**

K. De la Rosa – B cells at the crossroad of diversification and malignant transformation
C. Reinhardt – Lessons from mouse models
S. Dietrich – Intratumoral heterogeneity/CODEX
S. Haas – Dissecting tumor heterogeneity and reverse translation

14:30 2nd Coffee break

15:00 Translational Session IV – Development of new treatments: **Moderators:** **I-K. Na/J. Krönke**

C. Schmitt – Harnessing senescence as a therapeutic target in lymphoma
U. Höpken – Novel cellular therapies
A. Busse – Adoptive T cell therapies: phase I Charité studies (short talk)
P. Staber – Can we EXALT response by ex vivo drug testing?

16:00 **B. Chapuy** – Closing remarks / Farewell
